

# Preventive Medications Drug List

Starting July 1, 2026

Preventive medications can help keep you from getting certain long-term health conditions, which improves your chances of staying well and living longer.<sup>1</sup>

## About this drug list.

This is a list of the preventive generic and brand-name medications most often prescribed.

- Medications are in alphabetical (A-Z) order by condition.
- Generics are in lowercase letters. Brands are in ALL CAPITAL letters.
- This drug list doesn't include the preventive medications that are covered at no cost (\$0) under the Patient Protection and Affordable Care Act (PPACA), also known as "health care reform."
- **This drug list changes often**, so it may not show every preventive medication your plan covers. Your plan may not cover all the medications listed here. To see what your plan covers, log in to the myCigna<sup>®</sup> app<sup>2</sup> or **myCigna.com**<sup>®</sup>.

## Your preventive costs.

Not all plans cover preventive medications the same way. Some plans may have you pay part of the cost (like a copay, coinsurance, or deductible), while others don't. Log in to the myCigna app or **myCigna.com**, or check your plan details, to see what preventive medications your plan covers and what you'll pay.<sup>3</sup>

### Use a generic and save.

Generics work the same and provide the same health benefits as brand-name medications – and they cost less.

They have the same active ingredient, strength, and form (like a tablet or capsule).<sup>4</sup>

## Preventive Medications Drug List

Your plan may not cover all of these medications or conditions. Log in to the myCigna app or [myCigna.com](https://mycigna.com), or check your plan details, to see what's covered and what it will cost.

### Anxiety/Depression/ Bipolar Disorder

citalopram  
escitalopram oral solution, tablet

**Para obtener ayuda en español llame al número en su tarjeta de Cigna Healthcare.**

Cigna Healthcare reserves the right to make changes to this drug list without notice. Your plan may cover additional medications; please refer to your enrollment materials for details. Cigna Healthcare does not take responsibility for any medication decisions made by the doctor or pharmacist. Cigna Healthcare may receive payments from manufacturers of certain preferred brand medications, and in limited instances, certain non-preferred brand medications, that may or may not be shared with your plan depending on its arrangement with Cigna Healthcare. Depending upon plan design, market conditions, the extent to which manufacturer payments are shared with your plan and other factors as of the date of service, the preferred brand medication may or may not represent the lowest-cost brand medication within its class for you and/or your plan.

Health benefit plans vary, but in general to be eligible for coverage a drug must be approved by the Food and Drug Administration (FDA), prescribed by a health care professional, purchased from a licensed pharmacy and medically necessary. If your plan provides coverage for certain prescription drugs with no cost-share, you may be required to use an in-network pharmacy to fill the prescription. If you use a pharmacy that does not participate in your plan's network, your prescription may not be covered, or reimbursement may be limited by your plan's copayment, coinsurance or deductible requirements. Certain features described in this document may not be applicable to your specific health plan, and plan features may vary by location and plan type. Refer to your plan documents for costs and complete details of your plan's prescription drug coverage.

Cigna Healthcare products and services are provided exclusively by or through operating subsidiaries of The Cigna Group.
