

Cigna Healthcare National Preferred 3-Tier Prescription Drug List

Coverage starts July 1, 2026

About this drug list.

This is a list of the most commonly prescribed medications on the Cigna Healthcare National Preferred 3-Tier Prescription Drug List.

- Medications are in alphabetical (A-Z) order by condition.
- Generics are in lowercase letters. Brands are in ALL CAPITAL letters.
- **This drug list changes often**, so it may not show every medication your plan covers. Your plan may not cover all the medications listed here. To see what your plan covers, log in to the myCigna® app¹ or [myCigna.com](https://mycigna.com)®.

Letters next to medication names.

In this drug list, some medications have letters next to them.² Here's what they mean.

- **Prior Authorization (PA):** This medication needs approval from Cigna Healthcare before your plan will cover it. Your doctor's office will have to send us information to review to see if you meet coverage rules for the medication.
- **Quantity Limit (QL):** Your plan only covers a certain amount of this medication at one time. If your doctor wants you to fill more than your plan covers, your doctor's office can contact us to see if more can be approved.
- **Step Therapy (ST):** Your plan doesn't cover this medication until you try one or more lower-cost preferred options first. If you've already tried a preferred medication (or your doctor doesn't think one's right for you), your doctor's office can contact us to see if it can be covered.
- **Age Requirement (AGE):** Your plan will only cover this medication if you're a certain age or in a certain age range. If you're not in the approved age range and your doctor wants you to take it, your doctor's office can contact us to see if the medication can be covered.

1. App/online store terms and mobile phone carrier/data charges apply. Customers under age 13 (and/or their parent/guardian) will not be able to register at myCigna.com.
2. **Not all plans have extra coverage rules for certain medications – like prior authorization, quantity limits, Step Therapy, or age requirements.** Log in to the myCigna app or myCigna.com, or check your plan details, to see if yours does.

Para obtener ayuda en español llame al número en su tarjeta de Cigna Healthcare.

Cigna Healthcare reserves the right to make changes to this drug list without notice. Your plan may cover additional medications; please refer to your enrollment materials for details. Cigna Healthcare does not take responsibility for any medication decisions made by the doctor or pharmacist. Cigna Healthcare may receive payments from manufacturers of certain preferred brand medications, and in limited instances, certain non-preferred brand medications, that may or may not be shared with your plan depending on its arrangement with Cigna Healthcare. Depending upon plan design, market conditions, the extent to which manufacturer payments are shared with your plan and other factors as of the date of service, the preferred brand medication may or may not represent the lowest-cost brand medication within its class for you and/or your plan.

Health benefit plans vary, but in general to be eligible for coverage a drug must be approved by the Food and Drug Administration (FDA), prescribed by a health care professional, purchased from a licensed pharmacy and medically necessary. If your plan provides coverage for certain prescription drugs with no cost-share, you may be required to use an in-network pharmacy to fill the prescription. If you use a pharmacy that does not participate in your plan's network, your prescription may not be covered, or reimbursement may be limited by your plan's copayment, coinsurance or deductible requirements. Certain features described in this document may not be applicable to your specific health plan, and plan features may vary by location and plan type. Refer to your plan documents for costs and complete details of your plan's prescription drug coverage.

Cigna Healthcare products and services are provided exclusively by or through operating subsidiaries of The Cigna Group.
