

Copay Assurance Plan Drug List

Generic Specialty Medications
Starting July 1, 2026

With the Copay Assurance plan™, your cost stays the same every time you fill at an in-network pharmacy.

About this drug list.

- This list shows **Tier I generic specialty medications** that are part of Copay Assurance.
- Other generic and brand-name medications are also part of Copay Assurance, but they're not listed here.

To see if your medication is included, log in to the myCigna® App¹ or **myCigna.com**® and use the Price a Medication tool.

- Medications are in alphabetical (A-Z) order by condition.
- **This drug list changes often**, so it may not show every generic specialty medication that's part of this program. Your plan may not cover all the medications listed here. Log in to myCigna to see what your plan covers.

**Pay the same low copay.
Every time you fill.²**

\$5 for generics (including specialty medications)

\$25 for preferred brand medications

\$50 for non-preferred brand medications

\$45 for brand-name specialty medications

Cigna Healthcare reserves the right to make changes to this drug list without notice. Your plan may cover additional medications; please refer to your enrollment materials for details. Cigna Healthcare does not take responsibility for any medication decisions made by the doctor or pharmacist. Cigna Healthcare may receive payments from manufacturers of certain preferred brand medications, and in limited instances, certain non-preferred brand medications, that may or may not be shared with your plan depending on its arrangement with Cigna Healthcare. Depending upon plan design, market conditions, the extent to which manufacturer payments are shared with your plan and other factors as of the date of service, the preferred brand medication may or may not represent the lowest-cost brand medication within its class for you and/or your plan.

Health benefit plans vary, but in general to be eligible for coverage a drug must be approved by the Food and Drug Administration (FDA), prescribed by a health care professional, purchased from a licensed pharmacy and medically necessary. If your plan provides coverage for certain prescription drugs with no cost-share, you may be required to use an in-network pharmacy to fill the prescription. If you use a pharmacy that does not participate in your plan's network, your prescription may not be covered, or reimbursement may be limited by your plan's copayment, coinsurance or deductible requirements. Certain features described in this document may not be applicable to your specific health plan, and plan features may vary by location and plan type. Refer to your plan documents for costs and complete details of your plan's prescription drug coverage.

Cigna Healthcare products and services are provided exclusively by or through operating subsidiaries of The Cigna Group.
